Here you go!

BTW, I can't seem to find the online form to fill in the contributor names. Can I still add my RA's name to it?

Cheers,
Hoo Keat

Hi Hoo Keat

Thanks so much for the stellar effort! Yes you can just send me the excel files (nothing else needed)

Cheers
Adam

Hi Adam,

Hope you are keeping well.

My student helper has completed the coding spreadsheets. Do I send it directly to you? Also, do you need the raw data?

Best,

Hoo Keat

Hi Adam,

My student helper needs three weeks to complete the spreadsheets as she is now in the exam week. Is that fine?

Cheers,

Hi Hoo Keat

Sure, is two weeks enough or do you expect it to take longer?

Adam

Dear Adam,

Hope you are keeping well.

I am aware that our lab is behind the deadline, partially because our lab is lack of manpower. Just a quick update - we have managed to recruit 80++ Malaysians for each study (Study 1 and 2). So, in total, we now have at least 160 data.

My intern has been working on spreadsheets. If it ok if we spend few more working days to work on this?

My apologies for the delay.

Regards,
Hoo Keat

Hi Adam,

Thanks for the reminder!

My students are giving a final push this week and we will share the datasets with you by the end of this month.

Hi Hoo Keat

It's mid October so I am just emailing the remaining labs a final reminder to send me the results by end of month. Thanks again for all the hard work! We look forward to receiving your datasets by end of month.

Cheers
Adam

Hi Hoo Keat

Thanks for the update! Good to know that things are at least on track, I would suggest just trying your best to hit the number, if you don't meet it and it is fairly close, it should also be fine.

Fingers crossed!
Adam

Hi Adam,

I am keeping well, thanks. Just returned from a conference trip.

I did an inspection on the data, currently we have 90ish complete data after discarding noisy data. Because of the limited number of students on campus during the summer break, the recruitment process has been slow. However, my intern aims to collect another 50 more when the campus reopens in two weeks.

I am expecting the worse. Let's say we are unable to meet the target number, would you still accept our Malaysian data?

Cheers,
Hoo Keat

Hi Adam,

Sorry for the delayed response.
Thanks for your help with getting another extension. I will make sure we meet the deadline this time!

Best,
Hoo Keat

Hi Adam,

Thanks for getting in touch. I hope you are keeping well.

Our research progress has been delayed as my former research assistant unexpectedly quit to pursue her postgraduate studies at another institution. I recently hired a student helper to speed up the data collection.

A preliminary data check revealed that we might need 50 more participants after removing outliers and noisy data. Given the lack of students on campus during the upcoming summer break, realistically speaking, it would be great to get another 2-3 month extension to the current deadline.

I hope this is possible. Thanks for your support and consideration.

Subject: Ironic effects RRR- update

Hi everyone

Just to give you an update on where we're currently at with data collection. On the whole it seems that we are largely on track. Aside from the handful of labs that left (mostly early on) the project due to certain difficulties, we have received completed results from 21 labs, and are still waiting for results from 23 labs. Of these 23 labs, the great majority has mentioned recently that they are almost done and should be on track to sending us the completed data by end of this month, and I appreciate you all sticking to the timeframe and the communication and effort thus far.

We are coming to the end of May and it does look like that some of you might not be able to make it on time. However, I would just like to reassure you that the Editor has mentioned that we care about everyone finishing the data collection much more than everyone meeting a certain deadline. We wouldn't want to have people wrapping up data-collection prematurely since that might lead to an underpowered sample. Given the current state therefore, I suspect that we will be able to get one more deadline extension if lack of time is a common issue faced by multiple labs. So can you please give me another update as to when you anticipate being able to send me the completed results?

I look forward to your update, thanks again!
Adam
